EXPERIENCE

ALAIY FULL STACK / SOFTWARE ENGINEER INTERN

July 2025 - Present | Bengaluru, India

- **Owned** frontend systems, checkout flows, infrastructure improvements, and supplier-facing workflows for a B2B procurement platform
- **Owned** Amazon seller listing platform with scalable frontend architecture, state management, and credit systems
- Reduced deployment costs by **70%** through CI optimization and engineering workflow improvements
- Improved page load performance by **1.5s** by reducing bundle size by **50%**
- Achieved **10x** faster API latencies through backend and database query optimization
- Built high-traffic campaign platform handling **8.3K users/min** during movie launch events

CRED BACKEND SOLUTION ENGINEER INTERN

July 2024 - June 2025 | Bengaluru, India

- Reduced DB costs by **87%** and CPU usage from **70%** to **20%** by eliminating redundant DB writes and optimizing backend logic for a service
- Restored ingestion reliability to **99.9%** user coverage for a critical banking integration
- Resolved extraction funnel failures impacting **300K** workflows, **100K+** users; through debugging and pipeline fixes

COGNITIVELAB FULL STACK ENGINEER INTERN

April 2024 - May 2024 | Bengaluru, India

- Built end-to-end medical query platform with RAG-based retrieval and secure authentication
- Developed responsive frontend using Next.js, TailwindCSS, and ShadCN
- Engineered FastAPI backend enabling low-latency structured responses and scalable APIs

OPEN SOURCE

OPENFEATURE FOUNDATION (CNCF INCUBATED)

- Contributed to OFREP and flagd ecosystem through feature development, schema improvements, and bug fixes
- Accelerated OpenFeature 1.0.0 release

PROJECTS

SIGNATURE live | github

REACT, TYPESCRIPT, WEB AUDIO API

A platform built to visualize and create music, which gives

- interactive audio visualisation engine focused on rhythmic structures and realtime rendering
- a realtime looping studio with tempo synchronization, time-signature aware recording, and multi-bar composition support

WRITING

TECHNICAL BLOGS LINK 1 | LINK 2

- Wrote about frontend performance optimization, scalability, and web application architecture

EDUCATION

PES UNIVERSITY

B.TECH IN COMPUTER SCIENCE

2022 - 2026 | Bengaluru, India

CGPA: 8.94
